```
sequenceDiagram
    participant C as CLIENT LEVEL 10
    participant G as GATEWAY LEVEL 40
    participant S as SERVER LEVEL 50
    C->>G: WSP REQUEST
    S->>G: 
    G->>C: WSP RESPONSE
```

The diagram illustrates the flow of a WSP request and response across three levels: CLIENT LEVEL 10, GATEWAY LEVEL 40, and SERVER LEVEL 50. The request originates from the Client Level and is sent to the Gateway Level. The response is sent from the Server Level to the Gateway Level, and then from the Gateway Level back to the Client Level.
